

1898 SUPER CUT

DESCRIPTION

Coarse liquid rubbing compound, with good cutting power.

Suitable as the first polishing step, it removes scratches and sanding marks, both on recently applied coatings, if well cured, and on old, hard coatings.

Formula specifically developed for polyurethane clearcoats (cars, trucks, boats) and other automotive coatings.

Free from silicone oils.

CHARACTERISTICS

Base: aqueous emulsion O/W

Appearance: creamy liquid

Colours: white, black

Specific weight: 1,09 g/cm³ ± 0,05

APPLICATION

Machine application:

- with a traditional rotary polisher and merinos wool pad such as code 86777L;
- with random orbital polisher and pad such as LPR 21 code 86230G (yellow), or 86230V (green).

When finished, use a microfibre cloth such as code 48370 (orange) to remove residues and to clean the surface.

Apply a fine compound or a polish as a finishing step.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
