

## GC315

### DESCRIPTION

Extra-coarse liquid rubbing compound, with very high cutting power.  
It removes scratches and sanding marks, even deep ones, particularly from old and oxidized paints.

Formula specifically developed for boats, GRP surfaces, gel coat.

Free from silicone oils.

### CHARACTERISTICS

Base: aqueous emulsion O/W  
Appearance: creamy liquid  
Colours: white, black  
Specific weight: 1,25 g/cm<sup>3</sup> ± 0,05

### APPLICATION

Machine application with a traditional rotary polisher and merinos wool pad such as code 86777L or on honeycomb sponge pad such as code 86751 (yellow), depending on the substrate conditions;

When finished, use a microfibre cloth such as code 48370 (orange) to remove residues and to clean the surface.

Apply a fine compound or a polish as a finishing step.

*The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.*
