

ULTRAMORDENTE PLUS A

DESCRIPTION

Extra-coarse liquid rubbing compound, with the highest cutting power.

Suitable as the first polishing step, it removes scratches and sanding marks, even deep ones, both on recently applied coatings, if well cured, and on old, hard coatings.

Formula specifically developed for polyurethane clearcoats (cars, trucks, boats) and other coatings in the automotive and boating sector, GRP surfaces, gel-coat.

Free from silicone oils.

CHARACTERISTICS

Base: aqueous emulsion O/W

Appearance: creamy liquid

Colours: white

Specific weight: 1,25 g/cm³ ± 0,05

APPLICATION

Machine application with a traditional rotary polisher and honeycomb sponge pad such as code 86751 (yellow).

When finished, use a microfibre cloth such as code 48370 (orange) to remove residues and to clean the surface.

Apply a fine compound or a polish as a finishing step.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
