

POLISH TAXI

DESCRIPTION

Finishing compound with low abrasivity and good polishing power, with vitrifying effect.

It quickly removes small imperfections from painted surfaces with a slight abrasion and restores paint gloss providing a quality finish.

It is specially designed to eliminate oxidation and swirl marks, and for cleaning and refining of the car paint.

High resistance to weathering and to cleaning agents.

CHARACTERISTICS

Base: aqueous emulsion O/W

Specific gravity: $0,94 \text{ g/cm}^3 \pm 0,05$

Colour: pink

APPLICATION

Apply only to clean, dry surfaces. Do not apply in the sun or on hot surfaces.

Shake well before use.

Manual application:

- Apply a small amount of product on a soft cloth (such as Softex 5000 - code 48110 or orange microfibre cloth - code 48370).
- Hand pressure applied affects the abrasive action.
- Remove residues and wipe with a soft clean cloth (such as Softex 5000 - code 48110 or gold microfibre cloth - code 48340).

Machine application:

- Apply a small amount of product with a rotary polisher, speed 900/1200 rpm (without pressing) with a soft pad (such as code 86783) or a hex-face foam pad (such as code 86754 black). Alternatively, use a random orbital polisher and a soft pad such as LPR 21 orange (code 86230A).
- Remove residues and wipe with a soft clean cloth (such as Softex 5000 - code 48110 or gold microfibre cloth - code 48340).

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
