

DUST GREEN GLOVE

Made of polyester and viscose fibers with a medium opening, this glove is patented and it's ideal for capturing and retaining medium-small dust particles. Perfect in the preparation phase for painting, both for car bodies and for any surface to be overpainted.
Does not dry, does not leave greasy residues.

CHARACTERISTICS

Base: 50% viscose-50% polyester

Color: green

APPLICATION

Can be used freehand for removing dust particles on various substrates just before painting them.

The inside of the glove can also be used simply by turning it inside out.

To ensure optimum performance, it is recommended to maintain the temperature of the environment in between 18°C and 25°C before use.

STORAGE

12 months in a cool, dry place, at temperatures between 5°C and 45°C.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
