

LEATHER STRIPPER

Paint stripper specially formulated for the pre-treatment of leather and hide, ideal for deep cleaning. Effectively removes grease, oil and dirt stains, preparing the substrate for the application of the products in the LEATHER RESTORE KIT.

CHARACTERISTICS

- Physical state: liquid
- Base: solvent mixture
- Color: colorless
- Density: 0.83 g/cm³

SUBSTRATE PREPARATION

Remove any dust and/or impurities from the surfaces to be treated.

APPLICATION

Apply on the surface to be treated with a clean cotton cloth, leave to dry for at least 3 hours before treating the surface with the LEATHER RESTORE system.

It is recommended to test the product on a hidden area before use.

A color variation following application on the treated surface is normal.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
