

## LC 200

### DEFINITION

Water-based lubricating and polishing cleaner, ready to use. Formulated to remove impurities, soot residues, and degraded layers caused by ultraviolet radiation thanks to the abrasive action of KS8000 Abrasive Pads. Suitable for use on all painted surfaces.

### CHARACTERISTICS

- Chemical nature: aqueous solution
- Appearance: clear liquid
- Color: green
- Density: 1.00 g/cm<sup>3</sup> ± 0.05

### SUBSTRATE PREPARATION

Surfaces must be perfectly degreased, clean, and dry in order to prevent any residues from interfering with the sanding process.

### APPLICATION

Ready-to-use product.  
Shake well before use.

- For painted surfaces and fiberglass: apply LC 200 to the surface using the supplied spray bottle and remove the excess with a cloth (Hitex 4000).
- Sanding with KS 8000 Abrasive Pad: apply the product generously to the surface using the supplied spray bottle. Perform uniform and consistent movements with the KS 8000 pad, following the shape of the surface. Do not apply excessive pressure. Use a soft cloth (Hitex 4000) to dry and remove the impurities lifted by the pad.

### STORAGE

Store the product in a dry place, protected from direct sunlight, at temperatures between 5°C and 30°C.
