

P01

DEFINITION

Solvent-based spray cleaner with a pleasant citrus scent.

Designed for safe use on a wide variety of materials, including painted surfaces, glass, porcelain, concrete, and most plastics and vinyl. Suitable for adhesive removal.

CHARACTERISTICS

- Chemical nature: solvents mixture
- Bulk density: 0,70 g/cm³ ± 0,03
- Color: colorless

APPLICATION

SHAKE THE CAN WELL BEFORE APPLICATION.

Before each application, it is recommended to test the product on a small area. This product may attack some substrates.

Apply from a distance of 10-20 cm from the surface to be treated. Allow the cleaner to act on the surface for a few seconds, then remove the adhesive and/or dirt with a clean cloth. Rub well to achieve a clean, residue-free surface. For very stubborn adhesive and dirt, allow it to act longer on the adhesive or dirt before wiping, or repeat the application.

STORAGE

Store the product in a cool and dry place, away from direct sunlight, at temperatures between 5 and 35°C.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
