

KS 4500 TAPE REMOVAL DISC

DEFINITION

Rubber discs suitable for the effective and fast removal of glue residues, double-sided tape, and decals from painted bodywork surfaces, as well as from plastic profiles and moldings. Thanks to their action, considerable time is saved during the process. Furthermore, the special rubber compound has been designed to be safe, not damaging the underlying paint.

APPLICATION

No special tools are required.

Use a drill with an adjustable speed from 800 to a maximum of 1500 rpm.
The ideal operating speed is 1200 rpm. Do not exceed 1500 rpm.
Any rubber residues can be cleaned off with a standard cleaner.

N.B. Not suitable for thermoplastic acrylic paints.

STORAGE

Store the product for 12 months in a cool and dry place in its original packaging.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
