

EASY SPRAY PRO

DEFINITION

A manual pre-compression sprayer pump.

Suitable for ketones and esters (e.g., nitro thinner, acetone, acetates, and paint solvents in general), soaps, seawater, saline solutions, and acidic or basic solutions.

Limited resistance to mineral spirit, naphtha, aliphatic and aromatic hydrocarbons, chlorinated solvents, fuels, and mineral and natural oils and greases.

GENERAL CHARACTERISTICS

- Operation: manual
- Handle: ergonomic
- Capacity: 2 litres
- Average working pressure: 2 bar
- Spray angle: 60°C
- Maximum throw: 400 cm

MATERIALS

- Tank: HDPE (High-Density Polyethylene)
- Nozzle: Nylon
- Seals: EPDM

It is recommended to empty and clean the container after it's use.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
