

## GEL 2001- BUMPER SHINE

### DEFINITION

Gel 2001 is a brightener for bumpers as well as internal and external plastic parts for cars, buses and commercial vehicles.

It is creamy, scented and easy to apply.

**Silicon free.**

### CHARACTERISTICS

- Chemical nature: solvent-based product
- Color: blue
- Density:  $0.83 \pm 0.03 \text{ g/cm}^3$

### APPLICATION

Apply on clear, dry and not hot surfaces. Use a soft sponge to spread the product evenly over the surface to be treated, then make uniform using a Hitex 4000 cloth.

### STORAGE

Store in a cool, dry environment, protected from direct sunlight. The viscosity of the product varies depending on temperature: avoid exposing the product to temperatures higher than 30°C and lower than 10°C.

In any case, thinning or thickening the product will not affect its application or efficiency.

*The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.*
