

CLEAR GLAS

DEFINITION

Solvent-free cream for cleaning and polishing of car windows. Contains Cerium Oxide. It removes the matt effect caused by wear from car windows and in particular, from windscreens. It removes surface scratches and reduces visual disturbance from deep scratches without staining gaskets.

CHARACTERISTICS

- Chemical nature: aqueous suspension
- Colour: black
- Density: 1,30 g/cm³ ± 0,03

APPLICATION

Apply by rotary polisher with suitable felt disks at a speed between 900 and 1200 rpm. Work on the surface with slow movements, concentrating on the most difficult areas.

WARNING! Excessive speed will reduce the effectiveness of the product!

Remove any residues using water or *VITROGEL*.

STORAGE

Store in a cool, dry environment, protected from direct sunlight, and at temperatures between 5°C and 35°C.

Keep away from frost.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
