

DEFENDER CLEANER

DEFINITION

Degreasing cleaner for preparing surfaces for treatment with the Defender 2K nanometric system. Effectively removes residues before the use of micrometric and nanometric abrasive compounds, enhancing their grip, and acts as a "polish indicator" to verify the outcome. Improves the adhesion of finishing polishes, ensuring a uniform and long-lasting result.

CHARACTERISTICS

- Density: $1.05 \pm 0.03 \text{ g/cm}^3$
- Appearance: clear liquid
- Color: red
- pH: 10.0 ± 0.3

APPLICATION

Ready-to-use product. Shake well before use. Clean the substrate with a cloth soaked in Defender Cleaner, working on areas of approximately 0.5 m² at a time. Dry thoroughly with a clean cloth to prevent streaks.

STORAGE

Store in a cool, dry environment, protected from direct sunlight, and at temperatures between 5°C and 35°C.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
