

MASKING TAPE ORANGE 100°

DEFINITION

Masking tape designed for masking applications in industrial painting processes and automotive body repair.

Its performance also makes it suitable for production processes involving temporary exposure to medium-high temperatures.

The backing, available in a high-visibility orange colour, allows easy identification of masked areas and ensures precise, controlled application. At the end of the process, the tape can be removed easily, leaving surfaces clean and free from adhesive residue.

CHARACTERISTICS

- Backing: semi-creped paper
- Adhesive: natural rubber
- Colour: orange
- weight: 60 g/m²
- Dimensions: Length: 50 m; Widths: 19 mm, 38 mm, 50 mm
- Total thickness: 140 μ m
- Adhesion: > 2.6 N/cm
- Tensile strength: > 33 N/cm
- Elongation at break: > 8%
- Temperature resistance: 100°C for 60 minutes

APPLICATION RECOMMENDATIONS

Do not apply to paint that has not fully cured.

STORAGE

Store for up to 6 months in a cool, dry place in the original packaging. Recommended storage conditions: 18°C and 55% relative humidity.

The effectiveness of our products is based on practical experiences and research work carried out in our laboratories; nevertheless we accept no liability for work carried out following our instructions being clear that the final result depends in all cases on a series of unforeseeable factors.
